SUMMARY

- Experienced software developer with expertise in data analysis, ETL processes, data modeling, and full stack development.
- Experience in creating data visualizations with Power BI and presenting to stakeholders.
- Proficient in Python, R, Java, C, and experienced with AI/machine learning tools (Jupyter, Pandas, Matplotlib).
- Backend expertise in relational (MySQL, Oracle DB) and non-relational database management and microservices (Docker).
- Developed multiple projects from the scratch utilizing a range of technologies including React, Python Flask, Java Spring Boot, and RESTful APIs.
- Led and mentored a team of four in Agile environments (Scrum, Kanban), overseeing the full SDLC to ensure timely software delivery aligned with business objectives.

SKILLS

Data Science:	Business Intelligence (Power BI), Data Manipulation (SQL, R, Excel, Python - Pandas, NumPy), Data Warehousing (AWS Redshift), Data Analysis and Visualization (Scikit-learn, Matplotlib, Seaborn, Plotly, SciPy), ETL and Data Pipeline Management (AWS Glue, Apache Airflow)
Languages:	Python, R, JAVA, C, SQL, T-SQL, PL-SQL
Databases:	Non-relational database (MongoDB), Relational databases (MySQL, Oracle DB)
Operating Systems:	Linux, Mac, Red Hat 7/8, Windows 10/11
Software/Tools:	Version Control (Git), Microservices & Containerization (Docker, Docker Compose), IDEs & Editors (Jupyter Notebook/Lab, Eclipse IDE, Visual Studio Code), Issue Tracking & Collaboration (JIRA, Confluence), Scripting (Bash Scripting).
Cloud/Hosting:	AWS (Glue, Redshift, S3, EC2, Lambda), Hosting (Netlify, Heroku)

EXPERIENCE

Information Technology Consultant | Integrationworx | Winnipeg, Canada *Nov 2024 – Present*

- Earned certifications in AWS Cloud Practitioner, AWS AI Practitioner, Informatica Data Engineering Foundation, Cloud Data Governance and Catalog, and MDM SaaS Foundation; currently pursuing AWS Data Engineer Associate certification.

Web Application Developer | Manitoba Centre for Health policy | Winnipeg, Canada *Oct 2024 – Nov 2024*

- Redesigned a data-centric application by upgrading the tech stack of a decades-old architecture to improve performance and scalability.

Senior Application Engineer | Oracle | Bangalore, India *Jun 2015 – Sep 2020*

- Predictive Modelling for Manufacturing Customers:** Performed data analytics on manufacturing customer data, implemented machine learning algorithms (decision tree, random forest, SVM) in R to predict faulty products based on raw material quality and manufacturing processes, resulting in a nearly 20% reduction in faulty products for a major customer (*R, SQL, Python, PowerBI, Apache Airflow, AWS Glue, React, HTML, CSS, Java Spring Boot, PL/SQL, Git, Bash Scripting*).

Senior Member of Technical Staff | AGNITY Communications | Noida, India *Nov 2020 – Aug 2023*

- Led and mentored a team of four developers in Agile, overseeing full development while implementing key modules.
- Designed and implemented end-to-end applications including APIs, conducted POC demonstrations, and ensured high-quality software delivery through code reviews, documentation, and CI/CD implementation. (*React, HTML/CSS/JavaScript, SQL, Oracle Database, Java Spring Boot, PL/SQL*)
- Containerized the monolithic telecom application with focus on enhancing the modularity and maintainability (*Docker, Docker-compose*).

PROJECTS [\[Github link\]](#)

- Designed a **Python-based ETL pipeline** in Jupyter Notebook to integrate various data formats into MongoDB and Postgres, generating statistical reports and visualizations for projects like malware detection in IoT and credit card fraud prediction.
- Developed **JobWizard**, an end-to-end intelligent application that streamlines the job search and application process. It leverages BeautifulSoup to extract job openings from platforms like LinkedIn and Indeed, evaluates the compatibility of these listings with the user's resume using TF-IDF and BERT models, and automatically submits applications for positions that match the user's qualifications.

EDUCATION

- | | |
|--|----------------------------|
| Post Degree Diploma in Predictive Analytics University of Winnipeg Winnipeg, Canada | <i>Sep 2023 – Sep 2024</i> |
| Master of Science in Computer Science and Technology NIT, Trichy India | <i>Oct 2012 – Jun 2015</i> |
| Bachelor of Technology in Information Technology Uttarakhand Technical University India | <i>Jun 2007 – May 2011</i> |

PUBLICATIONS

- “Detection of Distributed Denial of Service Attacks Using Panel of Experts”: Bilingual International Conference on Information Technology: Yesterday, Today, and Tomorrow, 19 - 21, Feb. '15, DRDO, Delhi, pp. 248 - 254, DESIDOC. [\[Link\]](#)
- “A hybrid feature subset selection by combining filters and genetic algorithm”: International Conference on Computing, Communication & Automation (ICCCA), Greater Noida, India, 15-16 May 2015, pp. 283-289. [\[Link\]](#)

CERTIFICATIONS

AWS Certified Cloud Practitioner Amazon Web Services (AWS)	<i>Dec 2024</i>
AWS Certified AI Practitioner Amazon Web Services (AWS)	<i>Jun 2025</i>
AWS Certified Data Engineer - Associate Amazon Web Services (AWS)	<i>In-Progress</i>
